

CORONAVIRUS (COVID-19) UPDATE

Family Update
August 6, 2020

From the Executive Director

Dear Families,

As mandated by the Governor, we continue with weekly testing of staff who work in the Health Care Center and Diven House, including vendors who visit the campus on a weekly basis. We had one positive staff in the HCC this week, but we are not alarmed. It is someone that is asymptomatic and that previously had the disease. Though it is a “questionable” positive, we followed all required protocols of notifying residents, families, and our staff.

INDEPENDENT LIVING UPDATES

Carroll County Public Library

The Carroll County Public Library is returning to campus for Contactless Delivery. Residents can call Kathy Hlavin to arrange drop off (410) 386-4420 x 7732.

Fitness Update

Beginning August 10th, we are adding new classes to the schedule. Residents will be able to attend Aqua Fit classes on Monday's and Wednesday's at 1 pm and Aqua Zumba on Friday's at 1 pm.

Prayer Groups

Chaplain Eileen Kelly-Warner will begin small prayer groups of eight residents, by reservation only. Residents will be able to sign up for one of two time slots each week. Watch for information.

Window Washing

Window washing will begin on August 11th and run through September. Vendors will be screened each day before work and those who will need access to apartments will be wearing proper protective gear. All dates are tentative depending on the weather and work crew availability.

Grocery Delivery

It has come to our attention that delivery drivers for Safeway are leaving groceries in an area that isn't checked. We have contacted them to try to resolve this issue. If you help residents order groceries, they recommend that in the notes area you put "Please deliver to the Lobby at 300 St. Luke Circle" to ensure they are brought to the proper area. If there are any problems with deliveries, please contact Safeway for a refund/replacement.

ASSISTED LIVING / HEALTH CARE CENTER UPDATES

Health Care Center/Diven House

The painting and flooring project in the HCC is continuing; it already seems brighter and fresher. It may be another two to three weeks before completion.

We appreciate your continued support and cooperation. Thank you.

John B. Henry
