

VISITATION

Masking

Reminder that all visitors must be screened and wear a mask when coming to be screened for any visit. The CDC and MD Department of Health mandate that all visitors, vendors, and staff must remain masked in common areas. The Health Department also deems the 300 Lobby to be part of the HCC. That means when you arrive to visit, regardless of vaccination status, you must remain masked. You can unmask once you are in a private setting, if all parties are fully vaccinated.

Fully Vaccinated

Fully vaccinated is defined as having had either one injection of the Johnson & Johnson, or two injections of Astra Zenica, Moderna or Pfizer vaccines and two weeks having passed since the last dose was administered.

We are being allowed some additional opportunities, particularly if everyone in a group is vaccinated. We will be asking for evidence of vaccination at the screening station. This process can be easy by presenting either the card or a picture of the card on your phone. We are not keeping a copy of your vaccination record, so please be prepared to show it each time you visit.

Independent Living

Outdoor Visitation - Independent Living

- Visitors must be screened at the 300 Lobby screening station prior to each visit.
- Masking and distancing is required during the visit if any person in the visitation is not fully vaccinated.
- If all parties are fully vaccinated, you may visit unmasked and not physically distance.

Visitors may use the 300 Lobby restrooms while following all protocols.

Indoor Visitation - Independent Living

Visitors must be screened at the 300 Lobby screening station prior to each visit. Residents will be permitted to have visits from family and friends in the resident's home. Visits are not allowed, at this time, in communal areas. The following protocols must be followed to ensure the safety of our staff, residents, and visitors:

1. Visiting Hours for Non-Essential Visits are:
Monday - Sunday 10:00 a.m. - 8:00 p.m.
2. Visits are limited to five visitors at a time per visit, and it is recommended that they not exceed one hour.
3. Visitors are expected to wear their masks the entire time they are in the community outside of the resident's home.
4. Visits are allowed only outdoors or in resident's homes, not communal areas.
5. If anyone visiting is not vaccinated, COVID-19 protocols should be observed. Please remain six feet apart, and wash hands at the beginning and end of each visit.
6. If all parties have been fully vaccinated, they may remove their mask (inside the residence), have close contact, and dine together. *Evidence of vaccination required*
7. Dining with residents is offered to vaccinated residents at this time. Residents will need to make reservations, and guests must screen and provide evidence of vaccination.

Indoor Overnight Visitation:

While we still recommend outdoor visits and for visitors to utilize nearby hotels for out of town visits, if you choose to have them stay in your home, please be reminded of the following protocols:

- Visitors must remain in the residence, they are not permitted in communal areas of the campus.
- Visitors need to provide evidence of vaccinations. We would prefer they be sent ahead of the visit. Please email to kpyles@clvillage.org or fax to 410-857-0039, Attn: Kim Pyles. If they are unable to be sent in advance they can be copied at the screening area.

- Residents are asked to please notify Liz Horn, Allison Herman, or Kim Pyles if they are going to be having a visitor staying overnight.
- If the visitor(s) are not fully vaccinated, they need to provide evidence of a negative test results within 1 - 3 days before arrival. These can be presented at the screening area or sent in advance to Kim Pyles.
- There is a two-guest limit and stays should not exceed 14 days unless it is a compassionate care visit.
- All guests must be screened at the 300 Lobby upon arrival to the campus before going to the resident's home.

Residents are encouraged to review these policies with visitors prior to the visitation. Outdoor visits are still encouraged and preferred. Please note that essential visits remain unchanged. End-Of-Life or visits deemed essential must be pre-approved and put on an essential visitor list. These visitors must be screened prior to entering the community and follow all COVID-19 protocols.

Please contact Social Work if you receive care in your home that is essential. This will allow your caregiver to be on a list and given access directly after screening.

Resident Visitation Independent Living

- Residents may visit with each other in each other's homes and in common areas inside the community.
- While visiting in each other's home's, resident's may visit unmasked and dine together if everyone is vaccinated. If residents are unsure of any visitor's vaccination status, or it is known that someone isn't vaccinated, everyone should remain masked and follow all COVID-19 protocols.

COVID-19 Testing

Anyone who is tested for COVID-19 should notify Allison Herman, Care Coordinator when they are tested and again when they receive their results: 443-605-1033.

If you do not feel well or experience any of the following symptoms: vomiting, diarrhea, chills, muscle pain, headache, sore throat, new loss of taste or smell, fever, cough, or shortness of breath, contact your primary physician and **Allison Herman, Care Coordinator, 443-605-1033**.

Health Care Center & Assisted Living Visitation

ALL visitors must be screened at the 300 lobby prior to each visit. If you would like to visit with relaxed protocols, please provide evidence of being fully vaccinated at screening. Showing evidence of vaccination by showing one's card or a picture of it on one's phone is completely voluntary; if one does, the Health Department allows more freedom during visitation.

Indoor Visits -

- No more than 2 visitors for each visit.
- Visitors must follow infection control protocols (wearing a surgical mask at all times (we can provide them), hand sanitizing, and social distancing) while walking to and from the visit. Masking and social distancing should continue during the visit if any person in the visitation is not fully vaccinated.
- Visits may last up to one hour.
- If all parties are fully vaccinated, you may visit unmasked and share close contact. *Evidence of vaccination required*
- If unvaccinated, you are encouraged to bring evidence of a negative COVID-19 test result.
- If a resident shares a room, all visitors must remain masked. The visitation room continues to be available when unoccupied for private visitation.

Outdoor Visits -

- Limited to 9 visitors.
- Visits are limited to one hour.
- Masking and social distancing should continue during the visit if any person in the visitation is not fully vaccinated.

- If all parties are fully vaccinated, you may visit unmasked and not adhere to distancing. *Evidence of vaccination required*
- One visitor will bring the resident outside to the rest of the party. The rest of the party may park at the Health Care Center.
- All visitors must be screened.

If a visitor tested positive within the last two weeks, please do not visit.

We are not able to offer visits for residents who are currently on Isolation Precautions for any reason.

Arriving:

All visitors must be screened at the 300 lobby (please follow the signs). Visits will be in room or outdoors.

Subscribe to Weekly Updates

Anyone can subscribe to CLV's weekly updates by visiting www.clvillage.org and clicking on the "Subscribe" button at the top of the homepage. A printed version of these letters is also placed in resident mailboxes and mailed to family members.
