Dear Health Care Center Residents and Families:

We just received notification that Carroll County's COVID-19 community level is now classified as **high**. As a result, Health Care Center team members, visitors and contractors must be tested twice a week. Weekly testing and daily assessments, for COVID-19 signs or symptoms, remains in effect for residents.

Visitors must follow the following safety protocols:

- Provide the screener with a negative COVID-19 test result 72 hours prior to visiting. Visitors who are unable to get tested prior to visiting may take a rapid COVID-19 test from CLV to self-test.
- Wear a mask properly and for the entire visit. Masks are available at the screening station.
- Practice social distancing with other people, including the resident to whom you are visiting.
- Change the visiting location if the resident shares a room. Options include outside, the dining room, the courtyard dining room or the sitting room across from the courtyard dining room.

I will notify you of any changes to our outbreak status.

Sincerely,

Jennifer Miller
Director of Health Services
