

March 27, 2023

Dear Health Care Center Residents and Families:

As of today, our outbreak status has ended. Monitoring residents and team members for symptoms and testing when needed, will continue.

For everyone's safety, anyone who is experiencing cold-like symptoms should refrain from coming to CLV.

- Visitors should plan to visit when they are feeling better.
- Team members should refrain from working until they feel better.

Visitors are encouraged to be masked the entire time in the facility, regardless of vaccination status. All team members are required to wear masks.

All residents and team members continue to be monitored for symptoms. Proper personal protective equipment continues to be worn.

I will continue to provide updates on all changes in our outbreak status.

Sincerely,

Jennifer Miller, NHA  
Director of Health Services
